Approved by: Dr. Summer E. Stephens, Superintendent
Comment: This will require additional staff time and work to enroll students beyond the existing variances and could lead to costs associated with issues for special services of students.

Approved by: Clayton Anderson, Superintendent
Comment: This language very closely mirrors our already existing practices for applying for and granting variances. Furthermore, because the proposed new languages empowers, but does not obligate, districts to provide transportation for students on variances, we cannot find an associated fiscal impact.

Approved by: Paul Johnson, Chief Financial Officer

Comment: It is possible that AB 497 will have an impact, but we are not about the probability. The school communities are of considerable distance from one another so transporting students to a school outside of their zone of attendance would require an investment of time and money from the family. It is possible that the migration of a certain number of students in certain classes could cause class sizes to exceed statutory limits in grades K-3 that would require the District to hire additional staff but it would have to be anomalous activity for this to happen. The potential impact would increase in the event that students with special needs elect to cross attendance zones. Because the chances of this type of activity happening is relatively low, we have indicated that the impact cannot be determined.

Impact	FY 2022-23	FY 2023-24	FY 2024-25	Future Biennia
Cannot Be Determined	$0	$0	$0	$0
