Explanation (Use Additional Sheets of Attachments, if required)

AB 63 (BDR S-406) requires the Director of the Department of Transportation and the Director of the Department of Public Safety to review, study and prepare reports regarding certain issues relating to traffic safety. As currently proposed, this bill would have a fiscal impact on the Nevada Highway Patrol of the Department of Public Safety.

Section 2 of the proposed legislation requires the Director of the Department of Public Safety to conduct a study to determine the law enforcement resources that are necessary to improve public safety within the segment of Interstate 80 in this State that is between Vista Boulevard in the City of Sparks and the Wadsworth Interchange. The study must, without limitation, determine the fiscal amount that is necessary to provide increased enforcement of traffic laws to improve public safety within that segment of Interstate 80. The report shall be submitted no later than July 1, 2024. The agency has reached out to a vendor for an estimate of cost to conduct this study and has been verbally provided an initial quote of $25,000.
