Comment: This provisions of this BDR create an account for public health improvement in the State General Fund. Allocation of the monies deposited to the account will be determined based on the populations of the areas covered by health authorities established in accordance with existing statute and the provisions of this BDR. Because the creation of additional health authorities is authorized, the total amount of funding the Washoe County Health District would be eligible to receive is unknown. Therefore, a reliable estimate of the financial effect of the bill cannot be determined. Based upon the current structure, it is estimated that the Washoe County Health District would receive approximately $2.5 million annually from the account.
