Re: SB91- relating to governmental records; requiring records of the State Registrar of Vital Statistics, each county health officer and the Department of Motor Vehicles to include a diacritical mark used in the name of a person; requiring licenses, identification cards and driver authorization cards issued by the Department of Motor Vehicles to display a diacritical mark used in the full legal name of a person; and providing other matters properly relating thereto.

The Vital Records System (VRS) that creates the birth and death records is already able to include diacritical marks on names. VRS is limited to the following/below diacritical marks on names. In a few limited cases OVR would not be able to comply.
