Explanation

(Use Additional Sheets of Attachments, if required)

Per SB 431 that was passed during the 82nd legislative session, the Deputy Director of Boards and Commissions, in cooperation with the Speech-Language Pathology, Audiology, and Hearing Aid Dispensing Board, has reviewed the bill and concluded it will have a fiscal impact on the Speech-Language Pathology, Audiology, and Hearing Aid Dispensing Board, but the impact cannot be determined at this time. The Board has indicated the BDR will impact both its expenses (dues to the Audiology and Speech-Language Pathology Compact Commission) and revenue (licensing fees collected) but is unable to quantify these impacts at present because the Compact is not yet fully operational to issue privileges to practice (expected to begin in summer 2025) and the Compact Commission has yet to determine the annual state assessment fee or the cost of the privilege to practice. See attached exhibit for reference.

Organizational Input

Explanation: This BDR will have impact on both Board expenses (dues to the Compact Commission) and revenue (licensing fees collected) but we are unable to quantify these at this time.

The Compact has been in development for many years and originally needed 10 states to become operational. That happened a few years ago but it is not yet fully operational to issue privileges to practice, hoping to begin in summer 2025. The Commission has not yet determined the annual state assessment fee or the cost of the privilege to practice, which may vary, depending on the number of licensees who want to participate, delegates, etc.

Organizational Impact: Has Impact
