Assemblymember Brown-May:

Assembly Bill 198 prohibits a person from engaging in the business of an operator business, unless the person holds all applicable State and local business licenses. And requires an operator to conduct certain inspections, as well as other measures.

I rise today in support of Assembly Bill 198. This measure memorializes the life of Lizzy Hammond and enacts life saving measures. Each year, thousands of children sustain severe injuries or lose their lives due to incidents involving inflatable bounce houses. These tragic events are not isolated freak accidents, but rather a recurring issue that demands immediate attention and action to prevent further harm. Lizzy was a seventh generation Nevadan who was born on November 2, 2009, and left this world on July 16, 2019. It was due to blunt force trauma suffered two days earlier, when an improperly installed, non-weighted bounce house—without manufacturers tags, went into the wind. It attached itself to an electric line with four children inside.

The Lizzy Hammond Foundation has since dedicated itself to raising awareness, educating the public, and promoting safety standards for the operation of bounce houses to safeguard our children. This measure, Assembly Bill 198, is critical for the safety of children, and others, and ensures that bounce houses, bounce house operators, follow nationally recognized guidelines to ensure proper functioning, regular maintenance, and supervision during bounce house use—to reduce the risk of injury and death for our children, our grandchildren, and all those kiddos in Nevada and their families. I urge your support of this important measure.

Assemblymember Goulding:

Assembly Bill 205 revises provisions governing the instruction of sexual education.

Assemblymember Hansen:

I rise in opposition to AB [Assembly Bill] 205. AB 205 is a dramatic power shift in the state of Nevada. It is a state mandate from an opt in, to now, an opt out. As a parent, you are the final arbiter. You are the person who wants to give the permission to your children to participate in certain activities. Certainly, this big power shift dynamic now says that we must ask the state for permission to opt our children out. Now, the good news is for looking at data, 93 percent of children in the state of Nevada, participate in the comprehensive sex education programs in the state. There is a 95 percent response rate. And to highlight, Washoe County has a 1 percent that do not respond. As compared to our high school graduates that 81 percent of graduation rates, English language arts proficiency is 45 percent, and math is 19 percent. So with the current status, the way things have worked, with the way that things have been in the opt in, things are working. And so, I hope my colleagues will support the fundamental right of parents not to have to ask the state to opt their children out and oppose AB 205.
