I just want to go on record here and say that when this bill was initially pitched, I was a no. I want to acknowledge the effort and the work that has gone into addressing what I think the underlying aim of the policy was. I think the result with this amendment we have before us

today strikes a great balance in supporting the industry while still maintaining strong consumer protection measures. For those reasons, I have changed my vote, and I will be going yes today.

**Assemblymember La Rue Hatch:**

I would like to echo those comments. I had initial concerns but there has been a lot of work put into this bill. I appreciate that we tried to find the right number for Nevada and include safeguards. I will also be a yes as a result.
