CHAIR FLORES:
Next on the work session is Assembly Bill 43.

ASSEMBLY BILL 43 (1st Reprint): Revises provisions relating to public works. (BDR 28-465)

MR. STINNESBECK:
For the record, Assembly Bill 43 was heard in committee on May 15. Per the work session document (Exhibit AA), it establishes a permanent program to gather data on the use of job order contracts and authorizes certain public bodies to award job order contracts for certain public works. At the time of the printing of this work session document, there were no amendments proposed to this measure.

CHAIR FLORES:
I have had an opportunity to work specifically on this particular bill. I do have an amendment, and I want to put the intent on the record. The amendment would require that to qualify for a job order contract, the contractor must demonstrate that he or she has the financial ability to provide any necessary labor, materials or equipment; has the ability to obtain the necessary bonding; has access to a qualified workforce to perform the necessary work; is eligible to hire apprentices enrolled in the apprenticeship program registered and approved by the State Apprenticeship Council; operates a worker safety program that includes drug testing; and has to agree to certain workforce requirements to ensure safety, efficiency and quality.

Furthermore, the workforce [job order contract] requirements described in [section 9,] subsection 6 [1] are (1) the contractor and all subcontractors have to pay the appropriate prevailing wage for classes of workers except for apprentices and maintain the appropriate payroll record unless the project in the job order contract is subject to a project labor agreement (PLA). (2) All workers on the project must have at least three years of applicable experience except for apprentices and (3), at least 51 percent of the workers must be graduates of an apprenticeship program registered and approved by the State Apprenticeship Council. And last, the requirement described in subsection 1 [section 11] must include in bid specifications and advertisement for the job order contract.

SENATOR DALY:
In the second paragraph where it says, "must have at least three years of applicable experience," if you could incorporate in there "or have graduated from an apprenticeship program." Not all programs are three years. I know laborers, north and south, are two-year programs. We would not want someone to graduate from their apprenticeship, and then no, you can't work on this job anymore.

And then in the second part, number three, the third one where you said at least 51 percent of the workers must be graduates in an apprenticeship program. If you would consider having them be graduates or actual apprentices to get to that 51 percent, they have to use the apprentice utilization, as I understand it anyway.

But you are hitting the same thing on the 51 percent, either an apprentice or a graduate.

CHAIR FLORES:
Thank you, Senator Daly. We did go over that, and it was my mistake to not include both of those requests. It is my intent, for the record, to be clear that we include those two amendments as indicated by Senator Daly.

At this time, I would like to entertain a motion.

SENATOR NEAL:
Did you say that a PLA will be included?

CHAIR FLORES:
I want to make sure that you have the language in front of you.

SENATOR NEAL:
Yeah, but these are smaller projects. How does that work?

CHAIR FLORES:
I do not think you are looking at the amendment. I want to make sure that you have that in your hand. I am going to email it to you. We do appreciate your concerns that were raised previously.

At this time, I would like to entertain a motion to amend and do pass A.B. 43.

SENATOR OHRENSCHALL MOVED TO AMEND AND DO PASS AS AMENDED A.B. 43 WITH SENATOR DALY'S AMENDMENT.

SENATOR DALY SECONDED THE MOTION.

SENATOR NEAL:
I am a no on this bill. To me it should remain a pilot program until certain pieces are worked out. Clearly, you are amending it, but I am a no on this measure.
